Organizational background

St Freya University was founded in 1999. Strive to provide high quality education and bright future to Malaysians. To achieve high quality of the university, the university have provided many facilities for its students and staff. One of the main facilities is their canteen which is the place students and staff often stay there.

There are two canteens located in different sites of the university's campus. Both canteens also provide necessary facilities such as dining tables and chairs, a special staff dining room which has air conditioner. Food stalls such as mix rice, Masakan Malaysia, noodles, indo-deli, vegetarian mix rice are also available in both of the university's canteen. Thus, students and staff have variety of choices when they are having their breakfast or lunch.

For every semester, there are around 8000 students stay and pass by the canteen. Students and lecturers may come to canteen to enjoy their breakfast and lunch during their break time. Since the university has grown rapidly through these years, the number of students keep increasing and causing some problem to the university's canteen management.

The problem such as inconsistency of student's time table leads to the **canteen over crowded** that causes some of the students cannot enjoy their lunch during the peak period. Currently, student are required to queue up at the food stall which they wants to order a meal from, pay in cash to the staff in charge, the staff would have to calculate and provide the changes if needed. Then the staff would have to provide the food the student ordered. These leads to **long queuing and slow turnaround time** for student taking order from the staff.

Other than that, **mistake and erroneous** data may accidently recorded using manual system. Such as staff may make mistakes when taking orders of the students or staff during peak hours. This may be caused by the poor process of collecting customers' purchases order.

Objective of the Proposed System

Minimises Food Wastage

Canteen chefs worldwide must estimate the quantity of food resources to use on any given day, for cooking. Goes without saying, incorrect estimates mean wastage – and the chances of an estimate being precise are slim. Food wastage means an increase in costs. CMSs provide statistical data to employees, that can be used for calculating the amount of food to be prepared.

Swift Turnaround Time

With the canteen management systems, all the purchase order/pre-order is made through the canteen web application, thus CMSs can help to speed up the order, reducing customer waiting time for their meals. CMSs also provide a streamlining operations and improve customer's overall dining experience.

Cheap & Easy Maintenance of Records

CMSs maintain transactions records. Not only does automated record-keeping eliminate the need to maintain records manually, it also wipes out manual maintenance costs like papers and files. It also helps reduce human errors made.

Quick Generation of Reports

Canteen management systems generate several reports, such as employee consumption report, item wise consumption report, sales report, etc. Time frame of choice, such as a week, month, or year can be selected for each of these reports.

Reduce Manpower and Costs

Canteen management systems can reduce number of front-end labor and hence reduce costs. The online ordering process has remove the process of interacting with customer and remove conflicts between customer and canteen staff.

Description of proposed system

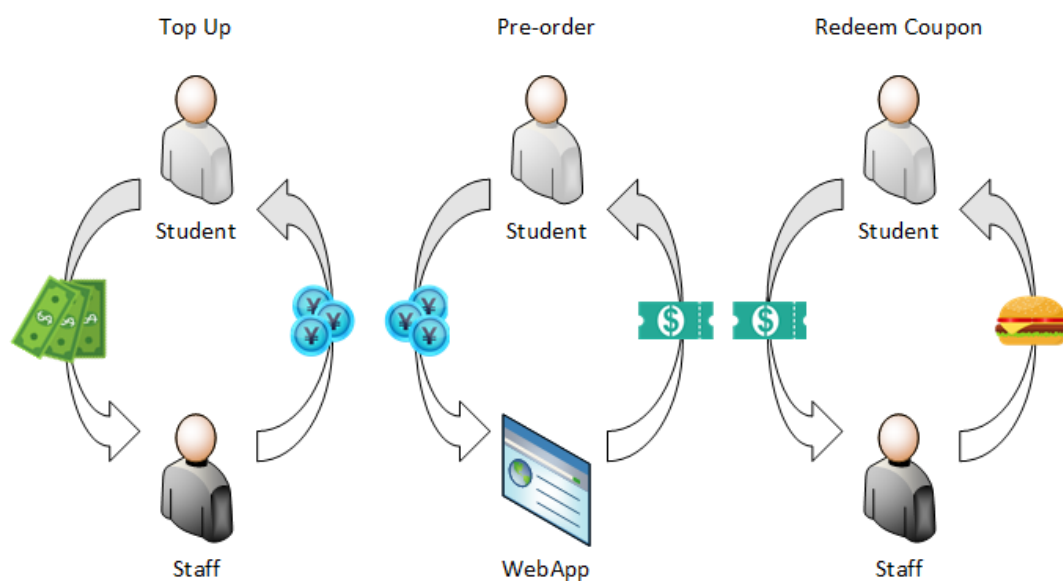

Security

To utilize the system, users are required to login. User is given the ability to change their account passwords. User can request a password recovery if they forgot their password. CMS will send a link to the email address assigned to the account. The user have to click the link to renew their password.

Registration

Students and staffs are required to create an account before utilizing the system. They will have to fill in their valid student/staff ID, an active email address, desired username and password. The CMSs will send a verification email to the corresponding email address. The email address is used for retrieving passwords and sending important announcements. They can login in to the system to update his or her personal details.

Order for meal

Students are required to login before using student portal. Which is converted to a RM 1 = 1 credit points ratio. Students can purchase credit point from canteen staffs by using cash. Credit point will be added (top up) to their account automatically after the payment.

Student can use the credit points to pre-order the food desired. Student would then print the list of coupons themselves. The coupon will contain the usable date, food selected, barcode, transaction ID. Students can print the coupon anytime.

Student can use the coupon on the specified date, by handing the coupon to the staff to scan. Once verified, staff could return back the coupon and serve the food to the student.

It is never been easier to check weekly food intake with all the details such as total expenses, calories intake, etc.

Meal management

Staff can login at the staff portal to utilize the system. They can manage their own menu and description of each meal. They also can upload image and state the nutritional value of the product.

The staffs are able to include details such as quantity of the main ingredients (e.g. chicken, fish, noodles) needed to prepare single set of the meal. CMS will display total quantity ingredients needed to prepare the number of meal set that ordered by the students on the particular day before they prepare the food. This way the staff will have a better estimate of the student demand and is able to minimize the food waste.

Students need to pass the coupon to the staff in charge to receive the food that they ordered, and their order status will change automatically.

Reporting

CMS will retrieve data from database and convert it into usable information. Which is useful for decision making such as the prediction of the amount of food needed to prepare that day. CMS can also generate transaction report for accounting purposes, reports generated by CMS will be more detailed and be more accurate.

Business rules

1. The business operation hour for the university canteen is from Monday to Saturday which Weekday (Monday to Friday is from 7:30 a.m. - 5:00 p.m.) while Saturday is from 7:30 a.m. - 3:00 p.m.
2. A student/staff must register an account for using student id, email address before the purchase order can be made.
3. Students can purchase credit point from canteen staffs by using cash.
4. Credit point will be added (top up) to their account automatically after the payment. The credit point convert ratio is $RM\ 1 = 1\ points$, the maximum amount of credit points can be top up at a time is 500 points which is $RM\ 500$ (*Assumption*).
5. The credits points can be refunded if the student cancelled the order one day before the redeem meal time.
6. Password recovery system will produce a token and send to student/staff's email for verification.
7. Students can pre order meal for single day or order for weekly or monthly basis.
8. Students are required to make pre order 2 days in advance. They are not allowed to update the order details one day before the actual meal order date. The cancellation of order must be done 1 day before the meal order.
9. Students even allowed printing the coupon anytime before their meal so that they can avoid coupon misplaced problem.
10. Students need to pass the coupon to the staff in charge to receive the food that they ordered, and their order status will change automatically, then the coupon cannot be use in anywhere else after that.

Customer/Student Portal

Sign in Page

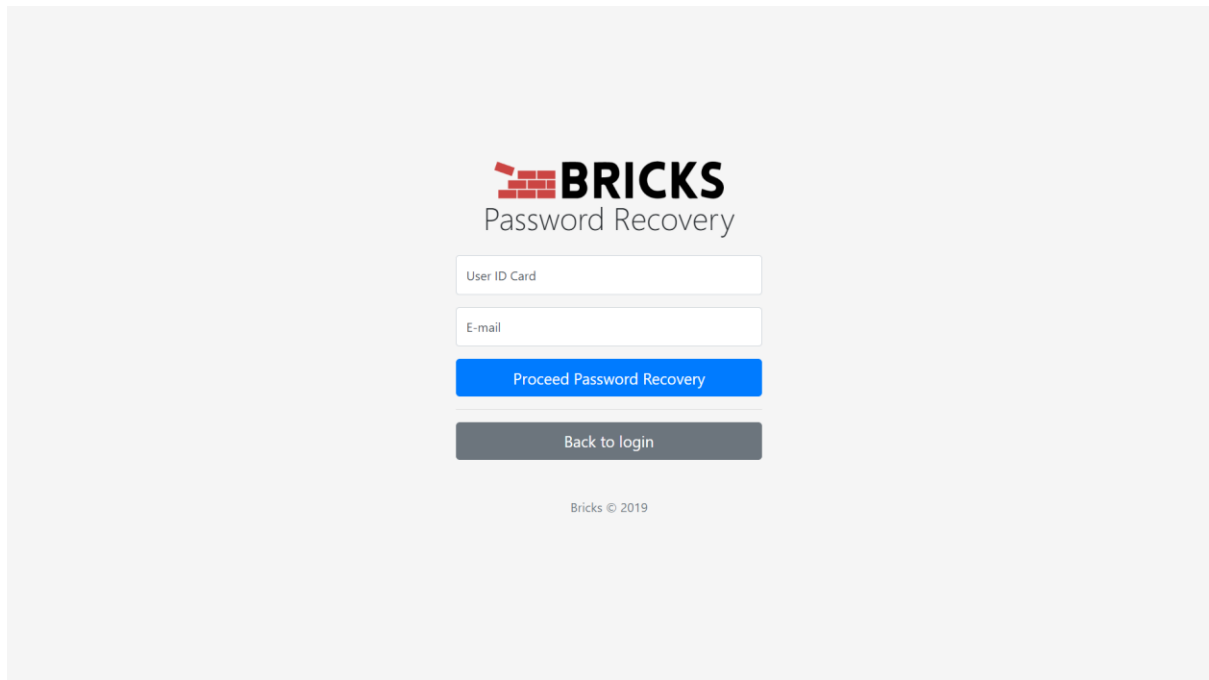

The image shows the 'Sign In' page for the BRICKS Customer/Student Portal. At the top center is the BRICKS logo, which consists of a red brick icon followed by the word 'BRICKS' in bold black uppercase letters. Below the logo is the text 'Sign In' in a large, grey, sans-serif font. Underneath, there are two white input fields: the first is labeled 'Username' and the second is labeled 'Password'. Below the password field is a small blue link that says 'Forgot Password?'. There are two buttons: a blue button with the text 'Sign In' and a dark grey button with the text 'Create New Account'. At the bottom center, there is a small copyright notice: 'Bricks © 2019'.

Sign Up page

The image shows the 'Sign Up' page for the BRICKS Customer/Student Portal. At the top center is the BRICKS logo, which consists of a red brick icon followed by the word 'BRICKS' in bold black uppercase letters. Below the logo is the text 'Sign Up' in a large, grey, sans-serif font. Underneath, there are five white input fields stacked vertically: 'User ID Card', 'Username', 'Email address', 'Password', and 'Confirm Password'. Below the input fields are two buttons: a blue button with the text 'Create Account' and a dark grey button with the text 'Back to Sign-In'. At the bottom center, there is a small copyright notice: 'Bricks © 2019'.

Password Recovery

The screenshot shows the initial password recovery screen for BRICKS. It features the company logo at the top, followed by the text "Password Recovery". Below this are two input fields: "User ID Card" and "E-mail". A blue button labeled "Proceed Password Recovery" is positioned below the "E-mail" field, and a grey button labeled "Back to login" is below it. At the bottom center, there is a small copyright notice: "Bricks © 2019".

Noodles

Wheat noodles in Japan were adapted from a Chinese recipe by a Buddhist monk as early as the 9th century. Ramen noodles, based on Chinese noodles, became popular in Japan by 1900.

Staff Portal

Staff Login

The image shows the BRICKS Staff Sign In page. At the top center is the BRICKS logo, which consists of a red brick icon followed by the word "BRICKS" in bold black letters. Below the logo is the heading "Staff Sign In" in a large, grey font. Underneath the heading are two input fields: "Staff Username" and "Password". Below the "Password" field is a blue link that says "Forgot Password?". At the bottom of the form are two buttons: a blue "Sign In" button and a grey "Create New Account" button. At the very bottom of the page, centered, is the text "Bricks © 2019".

Staff Signup

The image shows the BRICKS Sign Up page. At the top center is the BRICKS logo, which consists of a red brick icon followed by the word "BRICKS" in bold black letters. Below the logo is the heading "Sign Up" in a large, grey font. Underneath the heading are five input fields: "User ID Card", "Username", "Email address", "Password", and "Confirm Password". At the bottom of the form are two buttons: a blue "Create Account" button and a grey "Back to Sign-In" button. At the very bottom of the page, centered, is the text "Bricks © 2019".

Deactivating meal and Activating meal

The screenshot displays the BRICKS management interface. On the left is a sidebar menu with categories: Category (Masakan Malaysia), Dashboard, Manage (Manage Ingredients, Manage Meals, Manage Packages), and View Reports (Top Up History, Meal Order List, Order Cancellations, Sales Report). The main content area shows a form for editing a meal with fields for Calories (600), Image (Choose file / Browse), and Previous Ingredient List (Chicken Drumstick, Rice, Anchovy (pack)). A modal dialog titled "Confirmation to deactivate meal" is open, asking "Are you sure you want to deactivate this meal?" with "Yes" and "No" buttons. Below the dialog are three buttons: "Update Meal" (blue), "Deactivate" (red), and "Back" (grey). The footer shows "Bricks © 2019".

Manage Packages

The screenshot shows the 'Manage Packages' dashboard. On the left is a sidebar with navigation options: Category (Masakan Malaysia), Dashboard, View Meal Orders, Top-Up and Reload, Redeem Coupon, Manage (Manage Ingredients, Manage Meals, Manage Packages), and View Reports (Top Up History, Meal Order List, Order Cancellations, Sales Report). The main content area is titled 'Manage Packages' and displays six package cards. Each card shows the Package ID, a description, meal time, availability, and a list of meals for each day of the week.

| Package ID | Description | Meal Time | Availability | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
|------------|---|-----------|--------------|----------------------|-------------------------|----------------------|-----------------|-------------------|---------------------|
| 1 | Roasted Chicken, Drumstick, Kampung Chicken, Smoke Duck, Chicken Chop and Steam Chicken | Breakfast | true | Roasted Chicken Rice | Drumstick Chicken Rice | Kampung Chicken Rice | Smoke Duck Rice | Chicken Chop Rice | Steam Chicken Rice |
| 2 | Your favorite noodles house... | Lunch | true | Fish Ball Bihun | Mushroom Ramen | Smoked Duck Ramen | Hakka Ramen | Cheese spaghetti | Penang Laksa |
| 3 | Basic local foods from Masakan Malaysia | Lunch | true | Nasi Lemak | Nasi Lemak Rendang Ayam | Nasi Goreng Kampung | Kue Tiao Goreng | Mee Goreng | Nasi Goreng Pattaya |
| 4 | | | | | | | | | |
| 5 | | | | | | | | | |
| 6 | | | | | | | | | |

Add Package

The screenshot shows the 'Add Package' form. It includes a sidebar with the same navigation as the previous screen. The main form has fields for 'Select Time' (set to 'Breakfast'), 'Availability' (set to 'Active'), and 'Description' (containing 'Breakfast ...'). Below these are seven color-coded boxes for each day of the week, each with a dropdown menu for selecting a meal. At the bottom, there are 'Back' and 'Add Package' buttons.

| Day | Selected Meal |
|-----------|-------------------------|
| Monday | Nasi Lemak |
| Tuesday | Steam Chicken Rice |
| Wednesday | Kue Tiao Goreng |
| Thursday | Hakka Ramen |
| Friday | Fish Ball Bihun |
| Saturday | Nasi Lemak Rendang Ayam |
